

Description

With salt tolerance and a vigorous trailing growth habit it has many applications, Pennsylvania is the northern edge of its native range that includes 20 states. Frogfruit is a larval host for several butterflies, attracting numerous other pollinators with its nectar and long bloom time.

Profile

- **Botanical Name:** Phyla nodiflora
- **Family:** Verbanaceae
- **Plant Type:** Tender perennial
- **Plant Usage:** Ground Cover
- **Hardiness Zone:** 7-11
- **Foliage Color:** Green
- **Flower Color:** White to Pink
- **Bloom Time:** Spring till Fall
- **Winter Interest:** Semi evergreen in mild areas
- **Height:** 6"
- **Spread:** 24"+
- **Light Requirement:** Full sun to partial shade
- **Origin:** North America
- **Self Sowing:** Yes
- **Shade Tolerant:** Partial
- **Substitutes:** [Delosperma cooperi](#), [Thymus serpyllum](#), [Silene uniflora 'Compacta'](#),
